Dear Tarshem Kumar,

I am glad to know of your initiative to create United Masters (Sanyukat Masters). The concept of United Masters is praiseworthy in the present context.

Violence is pollution, and pollution is violence. This consciousness has to be translated into the objective of a movement for cleaning the human mind of violence and protecting the environment from pollution. A celebration of our consciousness against violence and pollution will be a universal message that goes beyond religious, political and social divisions.
